ACADEMIC EDUCATION

Technical University of Munich (TUM) — Munich, Germany

- **Starting on Oct 12, 2026: B. Sc. Mathematics with minor in Computer Science.**
- **Early Academic Studies as a high school student:** Completed *Introduction to CS (Eidl)*, 2023/24

French High School in Munich (Lycée Jean Renoir) — Munich, Germany

- **Grade 12 (2025/26): German Abitur passed with a grade of 1.0** (highest achievable grade) **Awarded French Diplôme du Baccalauréat with 'Mention Très Bien avec les Félicitations du Jury'** (highest honors of the French Baccalauréat), with majors Mathematics, Physics and Chemistry **3rd place worldwide in German at the Concours Général** (competition for top-level students), selected by faculty in Mathematics, Physics, Chemistry, and German.

EXTRACURRICULAR EDUCATION & PROJECTS

- **Math, Science & Literature Enrichment (Lyzeum 2, TUM, LMU):**
  TUM Mathematics Course for high school students, by Prof. Carsten Lange (2022, 2023)
  Advanced Course in Lagrangian mechanics, electrodynamics, calculus at "Lyzeum 2", extracurricular organization in Munich
  Delivered a literary research presentation on Ray Bradbury's 'Fahrenheit 451' at LMU University

- **Developing my own programming language 'Nihonium' (Since Dec 2025):** Independently designed and built an interpreted language supporting variables, functions, loops, lambdas, scoping, Python FFI, complex numbers, and interactive REPL. Currently developing a custom Virtual Machine (VM) for bytecode execution (June 2026–Present). Hosted on GitHub.

- **CHECK24 IT Scholarship (2025):** Built 'Calimiro AI', a smart fitness mirror using custom-trained AI models for real-time calisthenics exercise detection. Presented the project with my team in front of CHECK24 CTO, participated to multiple hackathons. Entered project into the German national AI Competition (BWKI). Featured in CHECK24 scholarship video interview.

- **Farning Programming School (since July 2022):** Student exchange to Tokyo and Kyoto (2025), representing Farning at CyberAgent and Japanese high schools. Hosted Japanese delegation in Munich, FORSCHA Exhibition representative at 'Deutsches Museum' (German national museum). Participated to coding workshops / hackathons at Google, Rohde & Schwarz, CHECK24, Celonis, etc.

- **Internship at Rohde & Schwarz (June/July 2024):** built an app with C# and SQL databases. **Internship / Young talents Hardware Club at Rohde & Schwarz (July 2023):** soldered a custom radio receiver. Designed, built and programmed a keyboard with self-made PCBs.

SKILLS & INTERESTS

Languages	French (Native), German (Native), English (C1)
IT skills	Language & Bytecode VM Design (Compilers, AST), Deep Learning Mathematics (Matrix Calculus, Backpropagation, Optimization), C/C++, Python, Java, C#...
Hobbies & Personal interests	Taekwondo, classical guitar, sailing (since 2017), table tennis, History, Politics
